

30 January 2019

QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDED 31 DECEMBER 2018

HIGHLIGHTS

- **Disposal of Ore Sorter and associated equipment for \$500,000**
- **Haywood Securities continue to manage divestment of the Big Springs Gold Project**
- **Options for re-commencement of mining being considered for Second Fortune**

WESTERN AUSTRALIA

During the quarter Anova sold its ore sorter and associated plant and equipment from its WA operations for \$500,000, with \$200,000 already received and the rest payable in three equal monthly instalments by March 2019.

Anova also entered into two agreements with Matsa Resources Limited (ASX:MAT) for the disposal of non-core WA tenements outside of the Second Fortune tenement area. The first agreement is a Sale and Purchase Agreement for the Zelica Project under which Anova will receive cash consideration of \$150,000. The transaction was completed in January 2019 with a variation whereby Anova will no longer receive an on-going royalty payment.

Additionally, Anova entered into a Placement and Option Deed with Matsa. Matsa subscribed for 10,000,000 ordinary shares in Anova Metals at a price of 2.25c, a premium to the share price of Anova. Anova granted Matsa an 18 month option to acquire its Devon Tenements (M39/87, M39/629, M39/500, E39/1232 and M39/386). Upon exercise of the option Matsa will be required to pay Anova \$200,000 in consideration and grant a 1% net smelter royalty on production from the Devon tenements.

The company is also considering options for re-commencing operations at Second Fortune with potential joint venture partners. Further details will be provided on these options as they develop.

BIG SPRINGS

Discussions between Anova, experienced Canadian resources advisors Haywoods Securities and potential parties continued through the quarter with proposals submitted from two separate parties late in the quarter. These are currently being considered by the company. Subsequent to quarter end further interest has been received which is being assessed. There is no certainty that the process will lead to the divestment of the Big Springs Gold Project and any agreement, once entered into, will be disclosed and be subject to any necessary regulatory approval process including any approvals required by the ASX.

CORPORATE

During the period, the Company held its Annual General Meeting and released its 2018 Annual Report, which can be viewed on the Company's website.

A reduction of the Company's overheads and suspension of directors' fees, together with the aforementioned disposals provide the Company with sufficient financial capacity to meet the its financial obligations for several quarters.

The Company continues to undertake disposals of non-core assets and non-core tenements from the WA tenement package and will continue to keep the market updated.

Competent Person Statement – Big Springs Project

The information in this report that relates to Exploration Results and Mineral Resources for the Big Springs Project is based on and fairly represents information compiled by Mr Lauritz Barnes (Principal Consultant Geologist, Trepanier Pty Ltd). Mr Barnes is a member of both the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists and has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Barnes consents to the inclusion in this report of the matters based on information in the form and context in which it appears.

Competent Person Statement – Second Fortune (Linden) Project

The information in this report that relates to Exploration Results and overall supervision and direction of Mineral Resources (including database compilation, sampling processes, geological and mineralisation interpretation, project parameters and costs) is based on and fairly represents, information and supporting documentation compiled under the overall supervision and direction of John Davis (Member of the Australian Institute of Geoscientists). Mr Davis has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Davis consents to the inclusion in the release of the statements based on their information in the form and context in which they appear.

Information in this report that relates to estimation, depletion and reporting of the Second Fortune Main Lode Mineral Resources is based on and fairly represents, information and supporting documentation compiled by Mr Mike Job who is a Member of the Australasian Institute of Mining and Metallurgy and at the time, a full time employee of QG Consulting Pty Ltd. Mr Job has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Job consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this report that relates to Ore Reserves has been compiled by Mr Andrew Gasmier, who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Gasmier is employed full time by Mining Plus. Mr Gasmier has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Gasmier consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Competent Person Statement – Zelica Project

The information in this report that relates to Mineral Resources for the Zelica Project is based on and fairly represents information and supporting documentation compiled under the overall supervision and direction of John Davis (Member of the Australian Institute of Geoscientists). Mr Davis has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. **The information was prepared and disclosed under the JORC Code 2004. It has not been updated since to comply with JORC Code 2012 on the basis that the information has not materially changed since it was last reported.** Mr Davis consents to the inclusion in the release of the statements based on their information in the form and context in which they appear.

Information in this report that relates to the Zelica Mineral Resources is based on information compiled by Don Maclean (Member of the Australian Institute of Geoscientists). Mr Maclean, at the time of estimation, was a principal consultant for Ravensgate Mining Industry Consultants Pty Ltd. Mr Maclean has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Maclean consents to the inclusion in the report of the statements based on his information in the form and context in which they appear.

Competent Person Statement – Malcolm Project

The information in this report that relates to Mineral Resources for the Malcolm Project is based on and fairly represents information and supporting documentation compiled under the overall supervision and direction of John Davis (Member of the Australian Institute of Geoscientists). Mr Davis has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. **The information was prepared and disclosed under the JORC Code 2004. It has not been updated since to comply with JORC Code 2012 on the basis that the information has not materially changed since it was last reported.** Mr Davis consents to the inclusion in the release of the statements based on their information in the form and context in which they appear.

Compliance statement

- This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- This statement gives a true and fair view of the matters disclosed.

Mr Steven Jackson

Company Secretary

Date: 30 January 2019

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
